

SEAWAY TASK FORCE COALITION

SUPPORT THE TROOPS & VETERANS

The Seaway Task Force joins the rest of America in saluting the hundreds of thousands of brave men and women who serve in the nation's armed forces and the millions who have retired from duty.

These brave citizens help ensure our safety and liberty. They represent the very best of American society.

Whether it was during World War II, Korea, Vietnam, the Persian Gulf, Iraq, and Afghanistan or during periods of relative peace, our veterans put their lives on the line.

The same is true today. At a time when the United States is confronting a host of threats, including a worldwide network of terrorists and a widespread proliferation of nuclear capabilities, today's troops help to make the nation safe. Some of them are our union brothers and sisters, our sons and daughters, our fathers and mothers. In actions and deeds, the Seaway Task Force salutes their efforts and promises to support them in every way possible.

We as proud members of the Union Veterans Council of the AFL-CIO will support programs that ensure the quality of life for vets and their families. Our primary concern is the need for job training and quality jobs as well as proper health care for those who serve our nation.

Therefore, the Seaway Task Force pledges to support our Troops and Veterans in every way possible.
